What is Around Us & Ahead of Us

Have you looked out the window or taken a walk outside lately? Have you had a chance to embrace this time of year? The trees are shedding common shades of green for the more colorful palettes of fall. The air brushes our face with the kiss of cool air, while here and there we catch the first aroma of October fires lit not so much for warmth but as to welcome the change in the season.

Change, each of the seasons has its own signature. Spring is rebirth. Summer is renewal. Winter is reflection. But Fall, well fall is a special time of the year that prepares for all the other seasons. It allows us that opportunity to appreciate what has come before and anticipate what will greet us soon.

We also have that opportunity. Just as fall prepares us for change, we must take that hint from mother nature and prepare ourselves to change. We can look at what has passed and appreciate it while we prepare to welcome the future; to contemplate the needs we have as individuals, as well as the needs we have as a society.

In that vein, we have a new Executive Board to elect, as we anticipate what they will bring to our state society. Yet we as members have an obligation, not just to attend a meeting but to take a page from fall. Shed our old ideas, refresh our thinking, address our attitude and build a state society to take on the future. This is a future not just for our good and well being but for those who will come after us.

So look out of the window, take a walk and enjoy this resplendent time of year while you prepare to take AIBDGA above and beyond.

On the lighter Side:

What's Up Now?

While attending an event at the Southern Living House, we had the opportunity to talk with David Hauck with Architectural Visions Inc. We discussed the products present in this remodel and all the innovations that AVI and Marvin Windows has put in place. David graciously offered to host our next meeting. We will meet in their Buckhead location. AVI will bring us to the forefront of all the products and innovations that are offered by their vast array of products and design options. Included in this informative afternoon will be a tour of their vast facility and a catered dinner. After we have satisfied our quest for product knowledge we will have our General Meeting at which we will vote for our new Executive Board. This will be a great time to learn, renew friendships and enjoy what our state society has to offer you. **Gain 2 CE's!**
