Seminar Schedule

8:00-8:30 SIGN IN

Time: 8:30-9:30 a.m.

Slate Roofs in America: An Enduring Architectural Statement – 1 – CEH/HSW

Presented by: Wayne Sanderson – CSI – Arch Svcs Manager-The Tapco Group

- Learn about the quality of today's slate material
- Review and learn about a variety of alternative roofing options available
- Learn to evaluate key performance aspects of alternative slate roofing
- Learn about synthetic slate tiles
- Review key components to long term roof performance

Time: 9:45-10:45 a.m.

"Weather Resistant Barriers in Exterior Vertical Wall" – 1 – CEH/HSW

Presented by: Bijan Mansouri – Technical Manager

Improve the designer's ability to evaluate and select appropriate Weather Resistive Barrier to give the maximum protection against water damages and air leakage. Learning Objectives: Performance to be completed, under what condition, and against what criterion?

- Discern the importance of Weather Resistant Barriers in modern construction.
- Understand the issues addressed by WRB's
- Be able to specify WRB's based on their performance

Time: 11:00-12:00 p.m.

Stainless Steel Cable Railing Systems: Designing for Building Code Compliance, Maximum Aesthetic Effect and Sustainability.

Presented by: Dave Morgan – National Sales Manager – Atlantis Rail

This course is designed to advise Architects of the best practices in designing a stainless steel cable railing system with a very unbiased approach based on current code requirements and available materials.

12:00-1:00 LUNCH

Time: 1:00-2:00 p.m.

Alternative Choices – Specialty Siding – 1 – CEH/HSW

Presented by: Wayne Sanderson – CSI – Arch Svcs Manager – The Tapco Group

- What is Specialty Siding?
- Latest product advancements
- Learn correct standards and test methods for your specifications
- Proper Installation techniques that can keep your firm out of trouble
- Walk away with an Independent methodology for differentiation of materials and product quality

Time: 2:15-3:15 p.m.

Vinyl Windows in the Light Commercial Market. – 1 – CEH/HSW

Presented by: Ken Henderson – Sr. Architectural Rep – Harvey Building Products

Oversized applications, window selection, design pressure concerns and proper installation. The installation details will deal with masonry openings, structural mullions, receptor and exterior panning systems. Applications including mill sites, hotels and light commercial buildings.

Time: 3:30-4:30 p.m.

Charming, Durable and Green: Specifying traditional-looking yet long-lived building products from the ground up – 1 – CEH/HSW/SD

Presented by: Wayne Sanderson – CSI – Arch Svcs Manager – The Tapco Group

- Learn the advantages of specifying alternative exterior cladding products that are low maintenance and have a very long lifespan
- Explanation and discussion on the sustainability of natural siding, shutter, and roofing products
- Review 3 case studies that demonstrate alternative products and their favourable life-cycle analysis

Please respond to Jessica Pluta three days before date

jessica_pluta@tapcoint.com
